

Baruntse (7129m) expedition is situated in Everest region between Makalu and Everest Himal. It is one of the beautiful 7129m snow peaks in the Himalayas of Nepal. This mountain standing majestically in the famous peaks of the world, Mt. Everest, Lhotse, Amadablam and Mera famous trekking peak. This popular expedition was first time successes by Colin Todd and Geoff Harrow on 30 May 1954. They climbed the mountain by the southeast ridge. Many climbers have used this route.

Baruntse expedition perfects first major Himalayan climb who wanting to move onto 8000m expedition. The best time for climb in Autumn (September to November) and Spring (March to June) season. It is technically not demanding like an Ama Dablam and Pumori. It offers a good and remote experience of snow and ice Climb and challenging, rewarding introduction Himalayan climbing.

Above the base camp our climb guide makes two camps. Frist camp is set up just below the east col (5700m) and the second camp is on the southeast ridge (6420m) before reach summit. The Glacier adventure company organizes an expedition an all major mountain. We have export management, well trained and experienced staff.
